Nine chances out of ten you will pay much higher prices later, and furthermore, you can get the cream of the crop by early buying.

If you will take our advice and buy now, we are confident you will save money. Many customers have written that they have taken our advice and bought their Seed early, saving anywhere from \$2.00 to \$5.00 per bushel. We need your co-operation, if you wish to buy your seed at a minimum price. We can sell Grass Seed early in the season for less money than later, and if you want to make this saving, send in your order now.

Study our Price List, as it means money to you. Everything offered at greatly reduced prices. Our values in Seed are wonderful the quality is extra high—better than ever before and our guarantee protects every buyer. Our prices on everything quoted includes bags for shipping. This is a big thing to consider, as bags in many cases will pay the freight.

WHY PRICES ARE QUOTED ON PRICE LIST

SPECIAL—As it requires several months to complete a large catalog, such as we issue, it is necessary to start printing it early in the fall, before crops are fully matured or values permanently established, so we are obliged to omit prices on the larger amounts, making our lowest prices in our Price List. The prices quoted in the Price List are our correct and prevailing quotations. Use only these prices, except on smaller amounts which are quoted postpaid in the catalog. Bear in mind that the prices in the Price List do not cover postage on Field Seeds, but Garden Seeds are postpaid, except Peas, Beans, Sweet Corn, Pop Corn and Onion Sets.

We shall issue this Red Price List from time to time, as occasion demands.
